Glen Bradford

Objective

To pursue a future career in an interesting an innovative field with lots of options including location, job structure, and employee happiness

Education

2005 - Present   Purdue University   West Lafayette, IN

Freshman Engineering

- GPA: 4.0
- Webmaster of the Hip-Hop Society

Education

2000 - 2004   Penn High School   Mishawaka, IN

- GPA: 3.9
- Throughout High School, I achieved most of my personal goals. I competed at a national level on a robotics team through FIRST. From scratch, I coded a dynamic, student updateable website that still exists today, ThePennant.com (www.thepennant.com).

Awards Received

Most notably, I won the technology department award for being the best programmer in the school as well as the senior journalism department award for bringing the school's newspaper into 21st century.

Work experience

2000-2004   SoccerZone (574)243-5777   Granger, IN

Concession

- Ran the concession stand at a local indoor soccer complex.

Summer jobs

Summer 2005   Robert Henry Corporation   South Bend, IN

Summer Help

- Installed and buried conduit pipe as well as pulled heavy duty electrical cabling through the pipes and sewers.

Volunteer experience

NIESC – 2003 Fall Semester – 10 Hrs./Week

- Rebuilt and repaired projectors, computer components, tape decks, video cassette players, and many items of similar nature.

Summary of qualifications

About Me

- Throughout high school, I learned VB and C++ through classes and self taught myself PHP when I developed The Pennant's website. Through a few difficult English classes and a nomination for Poet of the Year 2004, I began to establish that I was not only extremely talented in technologically oriented fields but was advanced across the board.
